SEAN

0:00 Ello, this is Sean.

MARSHALL

0:01 Son. Hi, this is Marshall Paulson legacy mechanical, returning your call.

SEAN

0:06 Hey, Marshall. Appreciate the call back.

MARSHALL

0:09 Certainly, we're gonna do to help you.

SEAN

0:12 Yeah. Yeah. So I was calling, I'm with a company called service trade or service management platform, both for the commercial service industry. Been in touch with Eric all strip. He said that you were the one to talk to garden service there. So wanted to reach out, understand that you all had, you know, recently moved forward with the different platforms. So just checking in to see how things have been going, if it would make sense to have a conversation about service trade.

MARSHALL

0:26 Yeah.

MARSHALL

0:39 No, we just switched over to the BuildOps.

MARSHALL

0:44 In December and so far it's going fairly well.

SEAN

0:49 Okay. Glad to hear it. Yeah, I've just talked to a few different companies and there hit a few snags and implementation, so glad to hear it's going well for you.

SEAN

1:00 But if anything happens hit any snags, would definitely love to be a back door option for you just to make sure that you don't get left out in the sun to dry, if you will.

MARSHALL

1:13 Right. Right. No, so far, things have been going fairly well, but we'll definitely keep you in mind. We see your emails and advertisements coming too frequently.

SEAN

1:20 I hear you. Okay. I must be on the side of marketing. I haven't sent anything over. So get you hanging in there.

MARSHALL

1:28 Yeah... yup.

SEAN

1:33 All right, Marshall. Well, I appreciate the call back.

MARSHALL

1:33 But, yeah, I mean.

MARSHALL

1:39 Certainly, we have a good day and thanks for calling.

SEAN

1:42 Yeah, you as well. Marshall. Have a good one.

The End
